

# King

## Weezer

### [Verse 1]

One night at the disco, I wanted to dance slow  
I saw a sweet baby, such a fine lady  
And I walked up to ask her, but some dude just grabbed her  
I told him to back off, cut me some slack off

### [Verse 2]

I see you come here, drinkin' that cheap beer  
Act like you own it, I can't condone it  
You show me no respect, you got to get off it  
You got to get with it, time for a swift kick

### [Chorus]

You see, I own this town, you best not come around  
If you wanna get by, then cool it down  
If you wanna start something, know one thing: I'm king  
If you wanna mess around like that, that's just how it is  
If you wanna get by, then mind your biz  
If you wanna start something, know one thing: I'm king

### [Verse 3]

You wanted attention, and did I mention?  
Nobody likes you, except for the losers  
You made a whole army, an army of babies  
Some of them stupid, some of them crazy

### [Verse 4]

Pick up your action, act like a grown man  
Look at the winners, you could be like them  
Life is so easy, pleasant and dreamy  
If you get off me, if you get with me

### [Chorus]

You see I own this town, you best not come around  
If you wanna get by, then cool it down  
If you wanna start something, know one thing: I'm king  
If you wanna mess around like that, that's just how it is  
If you wanna get by, then mind your biz  
If you wanna start something, know one thing: I'm king

[Bridge]

You can't break me, never take me  
That's just how it is  
You can't break me, never shake me  
Clear out of my biz

[Chorus]

You see I own this town, you best not come around  
If you wanna get by, then cool it down  
If you wanna start something, know one thing: I'm king  
If you wanna mess around like that, that's just how it is  
If you wanna get by, then mind your biz  
If you wanna start something, know one thing: I'm king

[Outro]

I'm king, I'm king  
I'm king, I'm king  
I'm king, I'm king  
I'm king, I'm king
