

Young Man

Justin Timberlake

[Intro: Silas Timberlake & Jessica Biel]

Da-da

Da-da

Yeah, good job

[Chorus]

I said, young man

Sit down, let me tell you how it's s'posed to be

How they told me

I said, young man, if you wanna make God smile

Make plans, you've got to be ready

You don't understand, right now you're a young man

You gon' have to stand for something

[Verse 1]

Beautiful boy, got it from your momma

Damn, she look good, you might get a sister

By the time you get the picture

If you want a woman this good, gotta clear your system

And it's all right

If you need to cry, you've got my permission

You can do anything in the world if you listen

[Chorus]

Like a young man

Sit down, let me tell you how it's s'posed to be

How they told me

I said, young man, if you wanna make God smile

Make plans, you've got to be ready

You don't understand, right now you're a young man

But you gon' have to stand for something

[Verse 2]

We don't ever back down, don't back down

We don't have to act out, don't act out

And even when you fall, don't stay down

If you need me around, you know I stay down

And anywhere you go, you can go your own way

If you ask me how I know these things, remember I once was a

[Chorus]

Young man

Sit down, let me tell you how it's s'posed to be

How they told me

I said, young man, if you wanna make God smile

Make plans, you've got to be ready

You don't understand, right now you're a young man

But you gon' have to stand for something

[Bridge]

Someday somebody's gonna break your heart in two

And I'll be there

Someday you're gonna break somebody's heart

That's what we do

One day I'll be gone, son, but right now I'm home

No, you'll never be alone

Maybe someday you'll be talking to your own

Young man, yeah

You know your daddy's so proud of you

My little young man

Mama just can't get enough of you

My little young man, yeah

You know your daddy's so proud of you

My little young man, yeah

[Chorus]

I said, young man

Sit down, let me tell you how it's s'posed to be

How they told me

I said, young man, if you wanna make God smile

Make plans, you've got to be ready

You don't understand, right now you're a young man

You gon' have to stand for something

[Outro: Silas Timberlake & Jessica Biel]

Daddy

Is it daddy

Daddy

Daddy

Yeah, that's daddy

Say, "I love you, daddy"

"I love you, daddy"

Sweet boy
