

# Almost Human

Lauren Daigle

[Verse 1]

Heart untethered, I was chosen  
To be a victim without knowing  
You see beyond all my doubt  
All I'm hiding, You bring it out  
I lose myself to Your control when You touch me

[Chorus]

I'm almost human  
Finally breathing, what is this feeling?  
Human  
Coming to my senses, losing my focus  
Taken by emotion, lost in the moment  
You make me feel  
Almost human

[Verse 2]

All I have known I will let go  
You show me a world so far from home (home, home, woah)  
I am a captive to Your ways  
And when You whisper, I am changed  
I feel it flowing through my veins

[Chorus]

I'm almost human  
Finally breathing, what is this feeling?  
Human  
Coming to my senses, losing my focus  
Taken by emotion, lost in the moment  
You make me feel  
Almost human  
Human  
I'm almost human

[Bridge]

Don't underestimate the power of this love  
Don't underestimate the power of this love  
Oh, don't underestimate the power of this love  
Oh, don't underestimate the power of this love

I'm almost human

[Chorus]

Human

Finally breathing, what is this feeling?

Human

Coming to my senses, losing my focus

Taken by emotion, lost in the moment

You make me feel

Almost human

You make me feel

Almost
