

Burn Out (feat. Dewain Whitmore)

Martin Garrix & Justin Mylo

Flash fire, I'm coming for ya
You're gonna feel me like the summer, like the sun in your eyes
Hold tight, another minute
Another hour, baby, I'mma show you You can rely on me
I'll give you all you need
In a smoke cloud, tryin' to find ground
In a place where we belong We don't have to dream to make it beautiful
Baby, everything we do is beautiful
We can light a fire, watch it everglow
We won't burn out, we won't burn out
We won't burn out, we won't burn out
We won't burn out, we won't burn out Won't take a million dollars
For us to have the kind of life you only see in a dream
Wake up, 'cause now you're in it
I wanna show you all the magic in the air And tonight it's free
It'll be all you need
In a smoke cloud, tryin' to find ground
In a place where we belong
We don't have to dream to make it beautiful
Baby, everything we do is beautiful
We can light a fire, watch it everglow
We won't burn out, we won't burn out We won't burn out, we won't burn out
We won't burn out, we won't burn out We won't burn out, we won't burn out
