

The All-Destroying

Goatwhore

[Intro]

Ah!

[Verse 1]

Crumbling stone faces
Dismantle this praise
Rubbing ash of conquest
Across faces of war

[Verse 2]

Self-imploding flame of birth
Scorn and hate risen from ashes
Diving the divisions of Hell
Dare to go where evil has no shame

[Verse 3]

Revolting the presence of question
Concealing this senseless bitter blood
A hope for this landscape of terror
For the demands of this retribution

[Verse 4]

Raped soul of conformity
Let the blood flow from these wrists
Transparent emotion of rage
As flesh tears in the fall of hope

[Verse 5]

Reap benefit of gratifying torture
Vast 'scape of crimson realms
Welcome this dread of unknowing
No higher vision shall curse my thoughts of devastation

[Verse 6]

Digested and forced
This carnivorous state
Of primitive killing
Unleash Hell's wrath

[Verse 7]

Swallowed in blood and fire
Assume the birth rite of murder
Great genesis of reprisal
Spreading great wings of war
Ooh

[Verse 8]
Taking the lives
Of this resistance
To fuel the machine
With endless carnage

[Bridge]
Prolong the expiation of faith in the jaws of fear
Satisfied in this excavation of the heavenly womb

[Verse 9]
Fed by flame
Nourished by death
I'm eating the blood
Tearing meat with teeth and nails

[Verse 10]
The all-destroying
Devouring the hearts of the ancient ways
A machine for the will of Satan
Whose tongues bless in diabolic spite
