

# Five and Dime

Joshua Radin

Everyone in is town  
Saying the same thing  
Wait 'til tomorrow  
See what that brings Moon rises  
n brings surprises to this small town Tryna wait tonight  
Til the midnight Talks her loud  
Remember the simple times When a girl was on her own  
And the world was full of charm  
And the sun was coming up  
To a better day  
She says take me back  
To a time i knew before  
Before I open  
My eyes and knew  
I wanted more And it waits the line  
Of five and dime The man stare, she says  
She doesn't mind You set miles to feet  
And she wears it on the sleep  
And remebers the day she said  
She was gonna leave She says take me back  
To a time I knew before  
Before I open my eyes and knew  
I wanted more  
Uuh, it's doubt to follow  
Time's not easy to swallow  
We're all lone for yesterday We said take us back  
To a time we knew before  
Before I open my eyes and knew  
I wanted you
