

# American Nights

Morgan Wallen

[Verse 1]

Blue ribbon bottles  
Big black throttles  
Marlborough's if you want 'em  
Go on and take a drag  
Little small town freedom  
Little taste of dreaming  
No need to preach, no need to shout, we believe in

[Chorus]

American nights  
Wanted line  
Cutting down Main Street in the dark  
Muscle shows, muscle cars  
Earning our stripes underneath these stars

[Verse 2]

Faded Levi's  
Worn out Chuck's  
20 in my pocket  
Feels like a million bucks  
Blue eyed beauty, lean into me  
Our own show in the back row  
Miss the whole damn movie

[Chorus]

American nights  
Wanted line  
Cutting down Main Street in the dark  
Muscle shows, muscle cars  
Earning our stripes underneath these stars  
American nights

[Bridge]

Pray the morning don't come  
These colours don't run  
Stay up and stay young

[Chorus]

American nights, American nights

Wanted line  
Cutting down Main Street in the dark  
Muscle shows, muscle cars  
Earning our stripes underneath these stars  
American nights, American nights  
American nights, American nights

[Outro]  
Pray the morning don't come  
Stay up and stay young
