

# Two By Two

## Animal Kingdom

[Verse 1]

Floods start coming, the waters rise  
Voices start to multiply  
There's something animal In your eyes  
And in all of us

Jaws locked tight and they won't let go  
I twist and try and shake them slow  
And we'll be taking the long way home for its calling us

Animals we are  
I don't want to go out hunting  
Keeping us apart  
We move as one

Animals we are  
I don't want to go out hunting  
I will build an ark  
For the rain to come

So you bitter ...?  
You've got poison on your tongue  
Yeah were all animals everyone one  
As in all of us

So there's something I just can't tame  
Lights and candles starts again  
Dance as long as the music plays  
For its calling us

Animals we are  
I don't want to go out hunting  
Keeping us apart  
We move as one

Animals we are  
I don't want to go out hunting  
I will build an ark  
For the rain to come

And what if underneath the words  
And what if underneath the clothes

And what if underneath the words  
And what if underneath the clothes  
We are animals

Animals we are  
I don't want to go out hunting  
Keeping us apart  
We move as one

Animals we are  
I don't want to go out hunting  
I will build an ark  
For the rain to come

Animals we are  
I don't want to go out hunting  
Keeping us apart  
We move as one

Animals we are  
I don't want to go out hunting  
I will build an ark  
For the rain to come...
