

# When the Day Comes

Nico & Vinz

[Verse 1: Vinz]

I'm ready for war  
Come into town and I'm high on the horizon  
In the city of God  
Fighting the town with my feelings aside  
When it's two in the night  
The fire in my heart's gon' keep me alive  
And I'm ready for war  
Whoa, whoa, whoa

[Verse 2: Vinz]

The voices in my head  
Is telling me that I should stay in my bed  
Cause it's two in the night  
Why can't I sleep when it's two in the night?  
It's the fire in my soul  
The fire in my soul got me ready to fight  
And I'm ready for war  
Whoa, whoa, whoa

[Pre-Chorus]

Climb the streets at night found my way over  
You know I've been so lost in translation  
Like I'm fighting for truce in Babylon  
Trying to find my peace in the zone of war

[Chorus]

Even when the day comes, even when the day comes  
Even when the day comes, even when the day comes  
Even when the day comes, even when the day comes  
Even when the day comes, I'll be ready when the day comes

[Verse 3: Nico]

I'm ready for war  
I'm ready for action, now watch me kick in the door  
But what if the day comes when we go from sun to monsoon?  
Who can I run to, run to, run to?  
Will you be loyal, will you be true when I need you?

[Pre-Chorus: Nico]

Say, climb these streets and I found my way over  
You know I've been so lost in translation  
Like I'm fighting for truce in Babylon  
Trying to find my peace in the zone of war

[Chorus]

Even when the day comes, even when the day comes  
Even when the day comes, even when the day comes  
Even when the day comes, even when the day comes  
Even when the day comes, I'll be ready when the day comes

[Bridge: Nico]

Even when the sky comes falling down  
I'd be ready when the sky comes falling down

[Verse 4: Vinz]

Today I will march for me  
Today you will march for you  
We raise our arms and hope for better ways  
We fight a million battles everyday  
I don't wanna see us falling  
So we just gotta keep on running  
Even when the day comes calling  
I'm ready to march on

[Chorus]

Even when the day comes, even when the day comes  
Even when the day comes, even when the day comes  
Even when the day comes, even when the day comes  
Even when the day comes, I'll be ready when the day comes

[Bridge: Nico]

Even when the sky comes falling down  
I'd be ready when the sky comes falling down
