

Princess

This Is Not America

[Verse 1]

Here she comes
Walking down the street
She'll probably break the hearts
Of anyone she'll meet

Please lead the way, get us all safely home today
Keep us out of trouble
Make sure that nothing
Leads us astray

[Chorus]

Was she designed to make us smile
Was she designed to make us sing
Was she designed to make us understand
That we don't mean a thing

Was she designed to lead us on
Was she designed to catch our fall
Was she designed to have us all believe
That love conquers all

[Verse 2]

There she goes
Sailing off into her gloom
There was nothing here for her
And now she's left us to our doom

[Chorus]

Was she designed to make us smile
Was she designed to make us sing
Was she designed to make us understand
That we don't mean a thing

Was she designed to lead us on
Was she designed to catch our fall
Was she designed to have us all believe
That love conquers all

[Verse 3]

Nothing she did, nothing she said
Was intended to harm anyone
But we didn't care
We were all scared, staring down a gun

She went riding on the wind
Sailing on the tide
Flying with the birds of love
Straight into the wild

Now her youth is fading fast
She feels a love for things that last
She is in the land of yesterdays
Questions never asked

[Chorus]

Was she designed to make us smile
Was she designed to make us sing
Was she designed to make us understand
That we don't mean a thing

Was she designed to lead us on
Was she designed to catch our fall
Was she designed to have us all believe
That love conquers all
