

# Don't Go City on Me

Kane Brown

I remember you in that jacked up jeep  
hair blowing sipping Mickey D's sweet tea  
cheap sunglasses and paisley boots  
long tan legs and those dairy dukes.  
Stopping forever single yard sale sign  
wouldn't give it do one more time .Don't go city one me  
please girl keep it country  
life so different since you cross those tracks  
bring that pretty little accent back .Don't go city on me  
come on keep it country  
with your fancy bland and your miss me jean  
the girl I knew wouldn't need those things  
don't go city on me  
Never knew our city
