

Miracle Man

AWOLNATION

Yeah!
We need a miracle
A miracle
A miracle man
I'm comfortable with who I am
I'm comfortable with my cynical stance
See its all around your head like a hurricane
It echo's through the halls of your beautiful veins
The shock is the awe of a reaction
So everybody prays to a midnight sun
I wanna know I wanna know I wanna know the truth
I lost my partner what will I do
I'll get another lover baby just like you
I'll skip to my darling, cheers to my
LOU
We need a miracle
A miracle
A miracle man
I'm comfortable with who I am
I'm comfortable with my cynical stance
See it's all around your head like a halo glow
It's circling the walls of your beautiful skull
The shock and the awe- hysteria
While everybody prays with a swollen tongue
I wanna know
I wanna know
I want another truth
I lost my partner what will I do
I'll get another lover baby just like you
And skip to my darling cheers to my
LOU
Beware hysteria
Beware hysteria
Livin our life
Livin our life
Beware hysteria
