

# The Other Way

Weezer

[Verse 1]

I want to help you  
But I don't know how  
I want to soothe you  
But I can't speak out

[Pre-Chorus]

I have many fears about rejection  
I have many memories of pain  
I have always been a little shy  
So I'll turn and look the other way

[Chorus]

Other way, other way  
I will turn and look the other way

[Verse 2]

I want to hold you  
But I am afraid  
I want to touch you  
But I'm not that way

[Pre-Chorus 2]

I have many doubts about my motives  
I have many fears about my greed  
I have always hurt the one that I love  
So I'll turn and look the other way

[Chorus]

Other way, other way  
I will turn and look the other way

[Guitar Solo]

[Reprise]

I have many doubts about my motives  
I have many fears about my greed  
I have always hurt the one that I love  
So I'll turn and look the other way

[Chorus]

Other way, other way  
I will turn and look the other way  
Other way, other way  
I will turn and look the other way  
Other way, other way  
I will turn and look the other way

[Outro]

(Other way) The other way  
(Other way) The other way  
(Other way) The other way  
(Other way) The other way
