

# Dark

[Ryan Beaver](#)

Way out here, you can feel it coming'  
You don't need no weatherman  
First comes the rain, then comes the pain, and the thunder rollin'  
Sirens scream, I don't give a damn

The power lines, they'll go to shakin'  
Twister come and I keep on drinkin'  
Let the lights go out in this town and in my heart  
Bring it on, I ain't afraid of the dark

This ain't my first fight with lonely  
Before we met, I lived for the night  
I'll admit I liked it lovin' you only  
But we both knew you and I were just a matter of time

The power lines, they'll go to shaking  
Twister come and I keep on drinkin'  
Let the lights go out in this town and in my heart  
Bring it on, I ain't afraid of the dark

Toe to toe with your memory  
Shadows dancin' in front of me  
Got a bad case of the used to be's  
You used to be mine yeah you used to be mine

Oh I keep on shakin'  
Twister come and I just keep on drinkin'  
Let the lights go out in this town and in my heart  
Bring it on, I ain't afraid  
Bring it on, I ain't afraid of the dark
