

# Nothing On You (feat. Paulo Londra & Dave)

Ed Sheeran

I feel it, can you feel it tonight?  
I feel the fire between you and I  
I mean it, don't you turn off a light Though I don't wanna leave you ever, no  
She was like "Dang  
Boy, I never took you for a one night stand  
So don't make plans  
For nothing but me and a lil' romance," hey  
You and I, Whiskey on ice  
Maybe later we can turn down all the lights  
So keep 'em on with nothing on  
Ooh-my-my-my  
I was rolling up something with you  
Kickin' back in a way that we do  
I got everything I need in this room  
Smoke clouds and a scent of perfume  
Know my friends are in the club  
And they keep ringin' my phone (Brrt)  
But they ain't got nothing on you (Uh, uh)  
And you ain't got nothing on you (Londra con flow) Mami, suelo acobardarme pero hoy tomo  
alcohol, uh  
Quiero comentarle que no sé que pasó, uh  
Desde que salimo' por la tarde los dos  
A besarnos los dos, hasta hacer el amor  
Ahora tengo tu olor, ven a la habitación  
Lo que hacemos los dos, no se puede igualar  
Parecemos ficción, cuando entramos en acción  
Esta peli de amor, no se acabar, yeah  
Pero lo que mata  
Es que esta noche no' vemo', y en mi casa  
Y sé lo que te gusta y te atrapa  
Que te diga que no te voy a soltar  
I was rolling up something with you  
Kickin' back in a way that we do  
I got everything I need in this room  
Smoke clouds and a scent of perfume  
Know my friends are in the club  
And they keep ringin' my phone (Brrt)  
But they ain't got nothing on you  
And you ain't got nothing on you Yuh! Take the lead, follow me, what's it gonna be?  
How you playin' hard to get when you hollered me?  
I take Chanel to Chanel for a shopping spree  
Home girl, only right she in a proper tee

What I want and need, you and a sofa  
I fly in a spaceship, I got a Land Rover  
Casa Cruz, Casa Blanca, Casanova  
I'm a fashionista, she a Fashion Nova  
Under my persona, when had her over  
The outfit, it cost bread, I got the match in loafers  
Why? 'Cause that's sittin' to do  
I got a million and two but they're nothin' on you, nah I was rolling up something with you  
Kickin' back in a way that we do  
I got everything I need in this room  
Smoke clouds and a scent of perfume  
Know my friends are in the club  
And they keep ringin' my phone (Brrt)  
But they ain't got nothing on you  
And you ain't got nothing on you She was like "Dang  
Boy, I never took you for a one night stand"  
She was like "Dang  
Boy, I never took you for a one night stand"  
Want to be your man?  
"Boy, I never took you for a one night stand"  
She was like "Dang  
And you ain't got nothing on you"
