

# Alien Boy

Oliver Tree

I fell down to earth  
From a hundred miles away and somehow  
I still make it work  
But it's overrated and somehow played out  
Three doors down so you can't ignore it  
I'll hunt you down like a tyrannosaurus  
My teeth are sharp like a great white shark  
Let me taste that flesh, it's my favorite part  
Got an eagle beak with the ostrich feet  
Seven spy garage for every day of the week  
Means I'm still up working while your bitch ass sleeps  
I'm an alien among the human beings  
I fell down to earth  
From a hundred miles away and somehow  
I still make it work  
But it's overrated and somehow played out  
Ten doors down but you still can't see me  
I talk a lot of shit so you won't believe me  
I really wouldn't say, anything else  
I shouldn't be standing here all by myself  
Cause I'm out there  
Tried to tell you that I'm out here on my own  
I told you I was out there  
Tried to tell you that I'm out here on my own  
I fell down to earth  
From a hundred miles away and somehow  
I still make it work  
But it's overrated and somehow played out  
I won't be here long at all  
I fell down to earth  
From a hundred miles away and somehow  
I still make it work  
But it's overrated and somehow played out
