

I Like It

Kari Kimmel

Why are you staring staring at me like that?

It's probably creeping me out

But I like it, oh I like it

You got a crazy crazy look in your eye

But I like it, oh I like it

All you scheming all you telling me lies

'Cause I like it, oh I like it

You're getting kinda freaky

but I don't really mind ooooh

You're kinda kinda dangerous

but it gets me high ooooh

You hypnotize me

and I like it

I'm so intrigued by the way that you touch me

you coming on so strong but I think it's sexy

Ooh I like it, oh I like it

You keep me guessing so I'm playing along

You're so aggressive and it's turning me on

Ooh I like it, oh yeah I like it

You're getting kinda freaky
but I don't really mind ooooooh
You're kinda kinda dangerous
but it gets me high ooooooh
You hypnotize me
and I like it

I like the bad boys give me direction
I'm just a good girl, needing attention
So take me away
I like 'em bad so in control
I'm not scared so come on let's go
and take me away

You're getting kinda freaky
but I don't really mind ooooooh
You're kinda kinda dangerous
but it gets me high ooooooh
You hypnotize me
and I like it
