

# Song for Another Time

## Old Dominion

Right now we both know  
we're Marina del Rey  
planes gonna fly away  
and you'll be on it  
And by this time tomorrow  
I'll be singing Yesterday  
the sunshine's gonna fade  
and we can't stop it  
so before we turn in to  
I can't make you love me let's be Brown Eyed Girl, Sweet Caroline,  
free fallin small town Saturday night.  
before you Lose that Loving Feeling  
let's go Dancing on the Ceiling  
keep on living that teenage dream  
Paradise City where the grass is green  
pretty soon I'll be so lonesome I could cry,  
but that's a song for another time  
For just for one more day  
what do you say  
baby be my Pretty Woman  
because we know Sunday morning's coming down  
and let's take a drive, you and I, down some old country road  
talk about growing old in one of those Pink Houses  
yeah we might be a Candle in the Wind  
but let's pretend we're Brown Eyed Girl, Sweet Caroline  
free fallin small town Saturday night.  
before you Lose that Loving Feeling  
let's go Dancing on the Ceiling  
keep on living that teenage dream  
paradise city where the grass is green  
pretty soon you'll be Always on my Mind  
but that's a song for another time so before we're singing I will always love you  
let's sing Brown Eyed Girl, Sweet Caroline,  
free fall small town Saturday night.  
before you Lose that Loving Feeling  
let's go Dancing on the Ceiling  
keep on living that teenage dream  
paradise city where the grass is green  
pretty soon I'll be so lonesome I could cry  
but that's a song for another time  
yeah, that's a song for another time
