

# Shooting Star (Stripped)

**Kari Kimmel**

I'm feeling higher than the sunrise  
Feeling lovelier than midnight  
And I wouldn't change a thing  
I'm standing taller now than ever  
Everything from here looks better  
No I wouldn't change a thing  
You can try to bring me down  
To shake my soul and take my crown  
I'll shine brighter, I'll shine brighter, brighter  
I've learned I'm a shooting star  
And no one can change who we are  
No one can take that away (from me)  
I know that good enough  
And I know that I'm beautiful  
And no one can take that away from me  
I'm feeling prettier than velvet  
Soaring higher than the heavens  
And I wouldn't change a thing  
Look up to the sky you'll see me  
Almost feels like I am dreaming  
Oh I wouldn't change a thing  
They can try to bring me down  
To shake my soul and take my crown  
I'll shine brighter, I'll shine brighter, brighter  
There's no shadow hanging over me  
I'm gonna live what i believe  
There's no taking away  
What I'm feeling at this moment  
For the first time I know I'm free  
I'm feeling beautiful and I can dream  
And no one's stopping me
