

# Missing You (feat. AC Slater & Kaleem Taylor)

## Tchami

I've been missing you, baby

One ring if you missed me too

Kissing is easy thing with you, but

All I can do is think of you? on my heart?

I let my heart within reach of the star

I feel pain nothing else can compare to

Nothing else

And if your feelings are true

Feelings are true

Feelings are true

And if your feelings are true

Feelings are true

Feelings are true

And if your feelings are true

Feelings are true

Feelings are true

And if your feelings are true

Feelings are true

Feelings are true

And if your feelings are true

Feelings are true

Feelings are true

Nothing else

I've been missing you

And if your

And if your

And if your feelings are true

Feelings are true

Feelings are true

And if your feelings are true

Feelings are true

Feelings are true

And if your feelings are true

Feelings are true

Feelings are true

And if your feelings are true

Feelings are true

Feelings are true

And if your feelings are true

Feelings are true

Feelings are true

And if your feelings are true

Feelings are true

Feelings are...
