

High and Low (feat. Joshua Radin)

[Sam Feldt](#)

When the old soles have shoes are worn through

And it's too far to find a way home

You're feeling older than you used to

Can't stop thinking you'll be left alone

Don't you worry now

Don't let life get you down

Just remember you're mine

When I see you in the high and low

In the high and low, I have found you

And I see you anywhere you go

Anywhere you go, I've followed you anywhere

The sun is so cold, as you reach for

My oldest T-shirt to keep you warm

We'll never grow old, we'll never want more

This love will weather in the storm

Don't you worry now

Don't let life get you down

Just remember you're mine

When I see you in the high and low

In the high and low, I have found you

And I see you anywhere you go

Anywhere you go, I've followed you anywhere

When I see you in the high and low

In the high and low, I have found you

And I see you anywhere you go

Anywhere you go, I've followed you anywhere
