

# No One Gets Left Behind

## Five Finger Death Punch

No one gets left behind - another fallen soul  
No one gets left behind - another broken home  
No one gets left behind - we stand and fight together  
No one gets left behind - but we all die alone  
Politicians, bathing in their greed  
No idea on how to be all they can be  
Have you no honor?  
Have you no soul?  
What is it they're dying for?  
Do you really even know?  
Have you no backbone?  
Have you no spine?  
What ever happened to  
No one gets left behind  
No one gets left behind - I know you made it up  
No one gets left behind - It's war for money  
No one gets left behind - drink from the golden cup  
No one gets left behind - you're time is coming  
Play your war games with other people's lives  
It should be you on the front line  
Have you no honor?  
Have you no soul?  
What is it they're dying for?  
Do you really even know?  
Have you no backbone?  
Have you no spine?  
What ever happened to  
No one gets left behind  
Have you no honor?  
Have you no soul?  
What is it they're dying for?  
Do you really even know?  
Have you no backbone?  
Have you no spine?  
What ever happened to  
No one gets left behind
