

Invitation

Why Don't We

I need a little casual conversation girl with you
And you ain't gotta worry about a thing no more
Cause baby I got the keys for us How about i pick you up at night
Meet at outside
Baby its a vibe Roll down the windows
We can fly
I can see the stars baby in your eyes And I can't wait no more Baby cause I like you
You like me
Let's just get together I like you
You like me
We don't need no invitation
Cause I like you
You like me
Let's just get together I like you
You like me
We don't need no invitation girl I need a little casual conversation girl with you
And you ain't gotta worry about a thing no more
Cause baby I got the keys for us How about I pick you up at night
Meet at outside
Baby its a vibe Roll down the windows
We can fly
I can see the stars baby in your eyes And I can't wait no more
Baby cause I like you
You like me
Let's just get together I like you
You like me
We don't need no invitation Cause I like you
You like me
Let's just get together I like you
You like me
We don't need no invitation girl Baby I like it Ooh Baby I need it And you want me too Baby I like
it Ooh Baby I need it And you want me too Baby I like it Ooh Baby I need it And you want me too.
