

# Back in the Water

HAEVN

[Verse 1]

You're back in the rain, in over your head  
Back in the deep, old things unsaid  
Back in the water, you're back in the water  
Leaving the last call for your heart  
Begging for so long  
Won't you come back in the water, back in the water

[Pre-Chorus]

The night fell slowly on our glory days  
I lie awake to see you fade away  
You're lost without a trace

[Chorus]

And when you're hiding on the water  
I'll be waiting till you're ready for my love  
When you've washed away your sorrow  
I'll be right here, till you're ready for the road

[Post-Chorus]

'Cause I will go with you (wherever you want, let's stay forever)  
'Cause I will go withâ€™ (wherever you want, let's stay forever)  
I will go with you (wherever you want, let's stay forever)  
I will go withâ€™

[Verse 2]

So tell me your lies and all your fears  
What took away your faith from here?  
Back in the water, back in the water  
I'm waiting for so long, won't you hide  
Trade in your darkness for the light  
Back in the water, back in the water

[Pre-Chorus]

The night fell slowly on our glory days

[Chorus]

And when you're hiding on the water  
I'll be waiting till you're ready for my love  
When you've washed away your sorrow

I'll be right here, till you're ready for the road

[Bridge]

I'll be on the watch until it's over

I'll put my back against the door

Your love is easier on the water

Not anymore

I'm feeling the weight that's on my shoulder

I see your dark clouds in the room

I found the stream that pulls you under

Not anymore

[Post-Chorus]

'Cause I will go with you (wherever you want, let's stay forever)

'Cause I will go withâ€“ (wherever you want, let's stay forever)

I will go with you (wherever you want, let's stay forever)

To where you're hiding on the water (wherever you want, let's stay forever)

'Cause I will go with, I will go with you (wherever you want, let's stay forever)

I will go with
