

California Halo Blue

AWOLNATION

Don't want to talk about it so I think I'll sing it with you
I thought I had until the morning and I know what to do
And she said I packed the car and grabbed the dogs and packed up plenty of food
Don't worry
And grab your journals, pack yourself then grab your favorite shoes California halo blue
California hang on through
California halo blue
California hang on through
I couldn't walk, I couldn't talk
You know I couldn't sit down
All I could do is wait around and pray for my home town
Remember
Ninth of November
Don't forget about the trees and the birds
And the families
Humanity now I can see the devil's hold on this world California halo blue
California hang on through
California halo blue
California hang on through Remember, remember the ninth of November
Remember, remember the ninth of November
Remember, remember the ninth of November
Ahh
California halo blue
California hang on through
California halo blue
California hang on through Oh, halo blue
Yeah, hang on through
Oh, halo blue
Yeah, hang on through
