

Heart On Fire (feat. Elisabeth Troy)

Clean Bandit

You came in deep, I'm hijacked, it's a hold up
I'm under it, send me spinning every time we touch
My head is gone and I think and think about you much
I've never been the type of girl to dream about
Sugary things and I don't believe in fairy tales
But now to me it's like your love is oxygen So hear me when I say this, boy I tell you true, I ain't
easy
There's something about you just make me so crazy I can't breath, you set my heart on fire
(fire, fire, fire, fire)
Every single thing you do does set my heart on fire I struggle to breath, I can't breath, you set
my heart on fire
(fire, fire, fire)
Start it again, I can't breath, you set my heart on fire
All about the feelin', it's off, and I'm a hedonist.
It's a chemistry, I'm so jacked up on your medicine This thing is next, I'm so in, not taking any
chance
No...Boy, you got me freakin', I never thought I'd be like this
When you go I'm tweakin', I'm pining for another fix
Told you before, your love is my oxygen So hear me when I say this, boy I tell you true, I ain't
easy
There's something about you just make me so crazy
I can't breath, you set my heart on fire
(fire, fire, fire, fire)
Every single thing you do does set my heart on fire
I struggle to breath, I can't breath, you set my heart on fire
(fire, fire, fire)
Start it again, I can't breath, you set my heart on fire
So hear me when I say this, boy I tell you true, I ain't easy
There's something about you just make me so crazy
I can't breath, you set my heart on fire
(fire, fire, fire, fire)
Every single thing you do does set my heart on fire
I struggle to breath, I can't breath, you set my heart on fire
(fire, fire, fire)
Start it again, I can't breath, you set my heart on fire
