

Doin' Dirt

Maroon 5

oh yeah
Hey you
Don't want to love you on the telephone You're hanging up and now I am all alone
Baby you got me doing dirt, doing dirt, doing dirt
And now I wanna find you but you're on the run
My heart's exploding like a burning sun
I know you like it when it hurts, when it hurts, when it hurts
Hold me we're dancing in the dark of the night
You're shining like a neon light
I light you up, when I get inside
So won't you touch me 'cause everybody's watching us now
We're putting on a show for the crowd
So turn it up baby make it loud
Hey you
Say that you're only having fun and then
You call me up at 3am again
Baby you got me doing dirt, doing dirt, doing dirt And now all that I got is just a microphone
To let you know that I am all alone
I know you like it when it hurts, when it hurts, when it hurts
Hold me we're dancing in the dark of the night
You're shining like a neon light
I light you up, when I get inside So won't you touch me 'cause everybody's watching us now
We're putting on a show for the crowd
So turn it up baby make it loud
So right now, I wanna leave with you right now
I wanna be with you all night, get in the car and let's go
Yeah let's take it home, let's take it home, let's take it home
So right now, I wanna leave with you right now
I wanna be with you all night, get in the car and let's go
Yeah let's take it home, let's take it home, let's take it home
Hold me we're dancing in the dark of the night
You're shining like a neon light
I light you up, when I get inside
So won't you touch me? cause everybody's watching us now
We're putting on a show for the crowd
So turn it up baby make it loud
