

Girl of My Dreams

Jonas Brothers

This Christmas time there's just one thing I want
It tops them all, it's better than eggnog
It's cold outside, my boots are full of snow
I'm just hoping for some mistletoe You can take these presents underneath my tree
You can take this awesome scarf my grandma made for me
You can take these boxes tied up with string
'Cause all I want for Christmas is the girl of my dreams The lights are going up, it's Christmas
time
I just want that girl to be mine
The stocking's full but I'm not satisfied, no, no, no, no
But I'll just wait until she's by my side
You can save these presents underneath my tree
You can take this awesome scarf my grandma made for me
You can take these boxes tied up with string
'Cause all I want for Christmas is the girl of my dreams Fa la la la la, la la la la
Fa la la la You can save this presents underneath my tree
You can save this awesome scarf my grandma made for me
I would give it all just to let you see
That all I want for Christmas is the girl of my dreams
You can save these presents underneath my tree
You can save this awesome scarf my grandma made for me
I would give it all just to let you see
That all I want for Christmas is the girl of my dreams
