

Set a Fire

Hellbaby

[verse 1]

You've been doing your own thing
You ain't even taking calls, you sit back and let the phone ring
Wasn't nobody there for you, now you counting now you adding up
They say they never hear from you, they don't get it you've just had enough
Ooo baby they can't fuck with you
Everybody in the room wondering can they keep in touch with you
But you be in and out, they can't keep up don't know what to do
Ooo ooo they don't know what to do, with you
Under the spell of your fragrance
Mademoiselle that's your favorite
Give 'em hell
Give 'em hell
Give 'em hell
Bodies dropping no escaping
Ain't even trying to escape it
I knew you were dangerous
I knew you were dangerous
I knew you were dangerous

[Chorus]

Set a fire
Set a flame x3
Set fire to me

Set a fire
Set a flame x3
Set fire to me

[verse 2]

Six million ways to die and I choose you
Six million ways to die and I choose you
I might as well've died if I was to lose you
Six million ways to die and I choose you
So dance for me
You hell in high heels
Dance for me
Have me all in my feels
Dance for me
Put your hands on me

You can feel a couple bands on me
You can smell it burning holes in my denim
You know I don't stand a chance
With the smell of your fragrance
Mademoiselle that's your favorite
Give 'em hell
Give 'em hell
Give 'em hell
Bodies dropping no escaping
Ain't even trying to escape it
I knew you were dangerous (dangerous)
I knew you were dangerous (dangerous)
I knew you were dangerous

[Chorus]
Set a fire
Set a flame x3
Set fire to me

Set a fire
Set a flame x3
Set fire to me
