

# Write Your Name

Selena Gomez

Eh eh eh eehh  
Eh eh eh eehh  
Eh eh eh eehh  
Eh eh eh eehh Take my arm, Take my head  
Make your mark  
Like a Man  
Write your name, Gonna write your name  
Hurts so Good,  
Love and Pain When all fade,  
You remain  
Write your name, Gonna write your name Write your name across my heart  
Write your name over every part  
And we could be  
Worlds apart  
Write your name across My heart Write your name, Write your name, Gonna write your name  
Write your name, Write your name, Gonna write your name Permanent  
Leave your scar,  
When you're gone  
You'll never Far  
Write your name, Gonna write your name  
Cover me, all you are, over me your signature Write Your Name, Gonna write you name.  
Write your name across my heart  
Write your name over every part  
And we could be  
Worlds apart  
Write your name across My heart It's your name  
Across my heart,  
Written in gold  
A permanent mark,  
Love engraved  
that's what we are  
More than words  
This love is art  
poetry motion  
put it right there  
Deeper than skin,  
Crystal clear,  
Letters don't fade  
Titanium made,  
Forever here  
Forever saved Write your name across my heart... Write your name across my heart  
Write your name over every part

And we could be  
Worlds apart  
Write your name across my heart Write your name, Write your name  
Write your name, Gonna write your name  
Write your name! Write your name, Write your name  
Write your name, Gonna write your name  
Write your name! Eh eh eh eehh  
Eh eh eh eehh  
Eh eh eh eehh  
Eh eh eh eehh...
