

# Already Missing You (feat. Selena Gomez)

Prince Royce

Driving all night just to say goodbye  
Windows down, hair in the wind  
Hang up the phone, it'll be a long night  
Empty pillows, 2 AM I cannot pretend I won't be lonely  
Every minute that you're gone  
But trust me, in the end it will be worth it  
'Cause baby you're the one I can't even face the daylight  
'Cause I'm already missing you  
Baby we'll say we'll be alright  
But I'm already missing you You got me lo-lo-lo-loving you  
Lo-lo-lo-loving you  
You got me lo-lo-lo-loving you  
Lo-lo-lo-loving you  
Loving you  
Loving you I'm missing your touch, I'm missing your smile  
Love to feel your hands on my skin  
Feeling a rush, it makes me go wild  
Crazy how you know what I think I cannot pretend I won't be lonely  
Every minute that you're gone  
But trust me, in the end it will be worth it  
'Cause baby you're the one I can't even face the daylight  
'Cause I'm already missing you  
Baby we'll say we'll be alright  
But I'm already missing you You got me lo-lo-lo-loving you  
Lo-lo-lo-loving you  
You got me lo-lo-lo-loving you  
Lo-lo-lo-loving you  
See the clock, close my eyes  
Wishing I could stop the hands of time  
Make this kiss, last forever  
Forever, but we gotta live our lives  
But that won't stop me from loving you I can't even face the daylight  
'Cause I'm already missing you  
Baby we'll say we'll be alright  
But I'm already missing you You got me lo-lo-lo-loving you  
Lo-lo-lo-loving you  
You got me lo-lo-lo-loving you  
Lo-lo-lo-loving you Loving you  
Loving you Driving all night just to say goodbye  
Windows down, hair in the wind  
I'm mad at myself, I'm struggling now  
But we've done this again and again
