

# Dancing In the Headlights

[Dustin Lynch](#)

You can see the dust from the trucks in the sunset  
Heading out down Lazy Branch Road  
High beams cutting a trail through the hay fields  
Crossing the creek where the fuzz can't go  
Make a few calls and the girls come running  
Guess me and the boys have go it going on  
the way they're lookin all summer time sexy  
Can make a party last all night long  
We got the drink drank, we got the tracks cranked  
We got the bass down low (whoa)  
Girls got there shaker shaking, a buzz in the making  
They're going out of control, (whoa)  
They're getting with it burning hotter by the minute  
You know you got the perfect night  
When you got the girls  
Dancing, dancing, dancing in the headlights  
Bodies moving to the beat of the music  
Shadows dancing in the top of the trees  
I can see you baby rocking that spotlight  
Lost in the moment, caught in the beam  
Repeat We got the girls dancing, dancing, in the  
headlights  
Dancing, dancing, dancing all night  
We got the drink drank, we got the tracks cranked  
we got the bass down low  
Girls got their shaker shaking, a buzz in the making  
They're going out of control, (whoa)  
They're getting with it burning hotter by the minute  
You know you got the perfect night  
When you got the girls  
Dancing, dancing, dancing in the headlights  
Dancing, dancing, dancing in the headlights
