

# Suffer

## Charlie Puth

Torna-tornado  
Baby you, you blow my mind  
You'll tell me wait, wait on ya  
But baby I can't wait all night  
I go through pictures inside my phone  
Won't stop tempting me  
You know what I want  
Wanna make, wanna make love  
Girl I can't lie I'm just a sucker  
For a cold hearted lover  
You make me suffer  
You make me suffer  
Don't keep me waiting  
You should come over  
Don't make me suffer  
Don't make me suffer  
So here we go, go again  
It's like I'm caught under your spell  
You're wearing black, black magic  
Well baby don't wear nothing else  
Well open up this door, don't you play  
Ain't no other man going to make you feel the same  
Wanna make, wanna make love  
Girl I can't lie I'm just a sucker  
For a cold hearted lover  
You make me suffer  
You make me suffer  
Don't keep me waiting  
You should come over  
Don't make me suffer  
Don't make me suffer  
I hate it when  
You get your way  
But we love you, we love you baby  
So please don't ever change  
You make me suffer baby  
You oh I'm just a sucker  
For a cold hearted lover  
You make me suffer  
You make me suffer  
Don't keep me waiting  
You should come over

Don't make me suffer

Don't make me suffer
