

# Come Save Me

**Hugh Jackman, Patrick Vaccariello & Stephanie J. Block**

Come save me  
I'm fading fast  
Why can't we be together  
And maybe I just won't last  
If I'm not with you forever Now I'm touching the stars  
And up here on mars  
I can rarely breathe Friends, that's why I smile  
'Cause all the while  
I've got you up my sleeve  
Come take me, I'm ready for  
All that I've never tasted  
Come wake me, let's make up for  
All of the good time we've wasted Now my heart is at stake  
My poor heart could break  
I might die if you leave Friends, ask why I cry  
I don't know why  
I don't really believe  
You'll save me Come save me Now I'm touching the stars  
And up here on mars  
I can rarely breathe  
Friends, ask why I smile  
'Cause all the while  
I've got you up my sleeve Come save me  
Save me, save me, save me  
Come save me now
