Imma vampire

(Hook:Sample)

(Verse 1:King Sesame)

Like an oldie I spit earth wind fire
I transcend higher other rappers been liars
Always in flyer here to change the entire
Rap game poisoned circumstance in dire
It's time to sink my teeth and Inspire
While her neck is leaking Stand by her
Turn her to a freak and As I'm peeping what these rappers speaking
That weakens her embryo
Been tired and Sick of hearing rappers blam friers
Selling grams pie and shipping bricks in van tires
Hiphops a mess why the fuck do you think they sent siah? Get it? Mess-iah
I'm the one you've been waiting for the Count try us
Bet you'll fucking die quick when my fangs apply ya pressure
And I gotta empire of vampires
Mmm flesha!

(Hook:Sample)

(Verse 2:King Sesame)

You can run but you can't hide
Muthafuckkas use your gun but you're gonna die
Fucking with the wrong guy I'm stronger than your average
Your garlic and your crosses are Garbage!
Watch me blow the cartridge ya niggas just a game
Played out rappers in Hiphop is just a shame
Wack shit!
I swear I never thought I'll see a day where rap'll be full of lames
Thank the devil for giving me a mouth full of fangs
Bite me and watch me tear you up vigorously
I'm ready to die you'll think B.I.G was me
I'm tired of the Fucking bias and the bigotry
This is to all you muthafuckas in the industry
Spitting that weak shit sound demo
I'll bang your instrumentals but your lyrics get a NO!

You know my Fucking M.O ,ain't nothing accidental
I'm a champ hired, amped fired and gotta empire of vampires
