

Still That Way

Cold Creek County

[Verse 1]

There you were with your ponytail swaying
Had me hooked, had me good, had me thinking
Yeah man what a sight, man what a night
First kiss and my heart was racing
Got me then, got me now, got me chasing
You for the rest of my life
Yeah baby I'm still falling for you

[Chorus]

Like that very first night you and I just feeling it
Sky was on fire, so was I
Yeah baby it's still that way, still that way
Girl I know that I'm never gonna forget how lucky I am
Baby know that I'm gonna feel that way, all my days
Girl when I see you it's still that way

[Verse 2]

Girl I sure like where this is going
Got some wine, got some candlelight flowing
These shadows of us can't get enough
Take a look at the love that we're making
In the morning I know I'll be saying
Yeah girl what a night
Look at me I'm still falling for you

[Chorus]

Like that very first night you and I just feeling it
Sky was on fire, so was I
Yeah baby it's still that way, still that way
Girl I know that I'm never gonna forget how lucky I am
Baby know that I'm gonna feel that way, all my days
Girl when I see you it's still that way

[Bridge]

I'm still falling for you

[Chorus]

Like that very first night you and I just feeling it
Sky was on fire, so was I

Yeah baby it's still that way, still that way
Girl I know that I'm never gonna forget how lucky I am
Baby know that I'm gonna feel that way, all my days
Girl when I see you
Girl when I see you
Yeah, it's still that way
