

# GET UP

## Shinedown

[Intro]

Get up, get up  
Get up, get up  
Get up, get up  
Get up, get up, get up, get up  
Get up, get up, get up, get up

[Verse 1]

I know you're clingin' to the light of day  
To tell you everything's A-okay  
And medication don't do much  
Yeah, it just numbs the brain

[Verse 2]

Guess you might say I'm a little intense  
I'm on the bright side of bein' hell bent  
So, take it from me, you're not the only one  
Who can't see straight (Can't see straight)

[Pre-Chorus]

If you were ever in doubt  
Don't sell yourself short, you might be bulletproof  
Hard to move mountains when you're paralyzed  
But you gotta try, and I'm callin' out

[Chorus]

Get up, get up, get a move on  
Get up, get up, what's takin' so long  
Get up, get up, get a move on  
Stop stallin', I'm callin' out  
Get up, get up, get a move on  
Get up, get up, ain't nothin' wrong  
'Cause I believe you can be whatever  
And I agree you can do much better, trust me (Trust me)

[Verse 3]

Everybody wants to sing their song  
So, Marvin Gaye, "What's Going On?"  
Ain't nothin' normal when it comes to you and me

I'd rather twist myself in knots than watch you give up on your dreams

[Pre-Chorus]

If you were ever in doubt  
Don't sell yourself short, you might be bulletproof  
Hard to move mountains when you're paralyzed  
But you gotta try, so I'm callin' out

[Chorus]

Get up, get up, get a move on  
Get up, get up, what's takin' so long  
Get up, get up, get a move on  
Stop stallin', I'm callin' out  
Get up, get up, get a move on  
Get up, get up, ain't nothin' wrong  
'Cause I believe you can be whatever  
And I agree you can do much better, trust me

[Interlude]

Yeah, I don't know why I never talk about it  
I guess that's probably part of the problem  
Yeah  
Sometimes you're wrong... sometimes you're right  
Just gotta keep movin'  
Yeah  
I'm just gonna keep movin'  
Today, tomorrow, and the next

[Chorus]

Get up, get up, get a move on  
Get up, get up, what's takin' so long  
Get up, get up, get a move on  
Stop stallin', I'm callin' out  
Get up, get up, get a move on  
Get up, get up, ain't nothin' wrong  
'Cause I believe you can be whatever  
And I agree you can do much better, trust me
