

Midnight Mess Around

Old Dominion

You're riding right beside me in my car
Looking like you wouldn't tell me no
I'm thinking about taking it too far
I don't think that we can make it home
A hotel room or a parking lot
'Cause I got it bad and I can't stop
The feeling that I gotta have you right now
How 'bout a midnight, midnight mess around
I know which road, which road to take you down
Just let your hair and your dress fall to the ground
How 'bout a midnight, midnight mess around
Baby, keep an eye out for the cops
'Cause we're taking it anything but slow
A little dirty but it's hot
You seem to like it when I lose control
Girl, you know it ain't safe to drive
'Cause I can't seem to keep my eyes
Off anything and everything you do
How 'bout a midnight, midnight mess around
I know which road, which road to take you down
Just let your hair and your dress fall to the ground
How 'bout a midnight, midnight mess around
It's getting late but it's too early to be shutting it
down
So how 'bout
How 'bout a midnight, midnight mess around
I know which road, which road to take you down
Let your hair and your dress fall to the ground
How 'bout a midnight, midnight mess around
A little midnight, midnight mess around
I know which road, which road to take you down
Just let your hair and your dress fall to the ground
How 'bout a midnight, midnight mess around
A little midnight, midnight mess around, mess around
Just a little mess around, just a little mess around, yeah
