

# That Was Us

Tracy Lawrence

Twenty dollars out of mama's purse bought us a tank of gas  
And some red man tobacco when we was just teenage kids  
Yeah me and my ole' buddy Leroy we'd go driving around  
If there was trouble to be found, man we dang sure did  
Cuttin' donuts in the field 'till old man  
Smith would call the cops  
And he'd come running out with a shotgun 'cause we was running down his  
crops  
I reckon he still wonders who that was  
That was us  
Some of those local boys moved on but we never changed a bit  
Don't guess we had enough sense, at least that's what some folks said  
Yeah we finally turned old enough to buy our own beer  
Don't remember much about that year, lucky we ain't dead 'Cause somebody said they saw some  
boys with a truck looked just like mine  
Trying to pull down that old water tank sits out on the county line  
People wonder why it leans the way it does  
That was us  
Seems like small towns never change but things get tough when times get hard  
And they said when he got sick that old man Smith would have lost that farm  
'Cause he was getting way behind on all his bills  
But someone came and brought his crops in from the fields  
Yeah folks 'round here still don't know who that was  
That was us  
Cuttin' donuts in the field 'till old man Smith would call the cops  
And he'd come running out with a shotgun 'cause we was running down his  
crops  
Somebody said they saw some boys with a truck looked just like mine  
Trying to pull down that old water tank sits out on the county line  
That was us  
Yeah that was us
