

Time

Mr Hudson

[Chorus]

Time is all I fear, it's why I just keep running
The quest for love was all that you and I held dear
With the beat still in your head, and a good book by your bed
We will survive

[Verse 1]

Someday
Are we gonna wake up
A little bit older?
Are we out of time, time, time?
I know that
Should we ever break up
We'll find a way to make up
In the fullness of time, time, time

[Pre-Chorus]

Tell me where do you wanna be
When all your friends have settled down
In the suburbs on the greener side of town?

[Chorus]

Time is all I fear, it's why I just keep running
The quest for love was all that you and I held dear
With the beat still in your head, and a good book by your bed

[Verse 2]

And as your old man said:
"Good friends
Well, you can count them on one hand
And they'll never judge you
Whatever your crime, crime, crime"
I know that
I can include you
And you'll forgive me
In the fullness of time, time, time

[Pre-Chorus]

Tell me where do you wanna be
When all your friends have settled down

In the suburbs on the greener side of town?

[Chorus]

Time is all I fear, it's why I just keep running
The quest for love was all that you and I held dear
With the beat still in your head, and a good book by your bed
We will survive, you and I

[Chorus]

Time is all I fear, it's why I just keep running
The quest for love was all that you and I held dear
With the beat still in your head, and a good book by your bed
We will survive, you and I
