

# Exodus (feat. Otis Parker & Garrison Starr)

[Sam Feldt](#)

Black nights, going blind

Colors fillin' in the lines

Breaking plates to wake my neighbors

Cashing in on all my favors

I'm putting all this emotion behind me tonight

So get in this car, get lost with us

We can both fall right down to dust

Take it two by two till we rock the bus

We'll be out of this town like an exodus

Up all night till the morning comes

Chasing that coping fairy dust

We've been working so hard and we need the rush

Get out of this town like an exodus

Get out of this town like an exodus

Get out of this town like an exodus

Skipping pebbles, throwing stones

Crashing waves and breaking bones

Pray to someone that can save us

Cashing in on all of our favors  
I'm putting all this emotion behind me tonight  
Said I'm putting all this emotion behind me tonight

So get in this car, get lost with us  
We can both fall right down to dust  
Take it two by two till we rock the bus  
We'll be out of this town like an exodus  
Up all night till the morning comes  
Chasing that coping fairy dust  
We've been working so hard and we need the rush  
Get out of this town like an exodus

Get out of this town like an exodus  
Get out of this town like an exodus

Don't blink too much, just get away  
Don't hold so tight to yesterday  
Don't think too much, just get away  
Don't hold so tight to yesterday  
To yesterday

Get out of this town like an exodus  
  
Get out of this town like an exodus

Get out of this town like an exodus
