

# Bed of Roses (feat. Stanaj)

Afrojack

[Verse 1: Stanaj]

I see the fear in your eyes  
Can't find the feeling inside  
You can run, you can try, living on your own  
But I just can't let you go[Pre-Chorus: Stanaj]  
And I think that you might have been  
In my heart all along  
And I know that if this is real  
Then how could it be wrong?

[Chorus: Stanaj]

Wanna make you my only  
Let me heal you what's broken  
Let your hair down softly  
In a bed of roses  
You don't have to be lonely  
Let me heal you what's broken  
Just lay your head on me  
In a bed of roses[Verse 2: Stanaj]  
I'll be the fire inside  
The one who's making you wild  
And I know you're afraid in a neverlast  
Cause it happens so fast  
[Pre-Chorus: Stanaj]  
And I think that you might have been  
In my heart all along  
And I know that if this is real  
Then how could it be wrong?[Chorus: Stanaj]  
Wanna make you my only  
Let me heal you what's broken  
Let your hair down softly  
In a bed of roses  
You don't have to be lonely  
Let me heal you what's broken  
Just lay your head on me  
In a bed of rosesWanna make you my only  
Let me heal you what's broken  
Let your hair down softly  
In a bed of roses  
In a bed of roses  
In a bed of roses
