

# Done

Chris Janson

Done

The first time I saw you, done  
Like the first dance was through, I was done That one kiss, I knew  
There was nothing I wouldn't do  
Just to give you That house on a hill with a four-plank around it  
Every last breath till the last star is counted  
Just say the word girl, paint me, you're perfect  
I won't quit till the good Lord says my work is done  
Like a faded out song on the radio, done  
Like the cowboy gets the girl when the curtains roll  
I'll give you a lifetime of days in the sun  
Whatever you need and you want, I won't stop till it's done

Done

All the hell I was raising, done  
All the careless heartbreaking, done  
For the chance that you'll taken  
I spend my nights praying  
And all my days chasing That house on a hill with a four-plank around it  
Every last breath till the last star is counted  
Just say the word girl, paint me, you're perfect  
I won't quit till the good Lord says my work is done  
Like a faded out song on the radio, done  
Like the cowboy gets the girl when the curtains roll  
I'll give you a lifetime of days in the sun  
Whatever you need and you want, I won't stop till it's done You know I won't stop till it's done  
You need a man you can lean on, done  
You need some faith you can hang your dreams on  
Check 'em off one by one  
In that house on a hill with a four-plank around it  
Every last breath till the last star is counted  
Just say the word girl, paint me, you're perfect  
I won't quit till the good Lord says my work is done  
Like a faded out song on the radio, done  
Like the cowboy gets the girl when the curtains roll  
I'll give you a lifetime of days in the sun  
Whatever you need and you want, I won't stop till it's done Baby, I won't stop till it's done  
Oh, you know I ain't done  
First time I saw you, done
