

Gold

Sam Feldt & Kate Ryan

[Intro]

Gold, gold

[Verse 1]

In the shell the water's fine
Don't wanna leave the old behind
If it's not now, give it time
Everybody has to cross the line
Thoughts and prayers are not enough
It's battle scars that make us tough
Bend the wood and build the ships
Say farewell with a widow's kiss

[Pre-Chorus]

Come with me, darling
Let's go down the secret road
Where the unknown is all we know
Lay with me, darling
Let's sleep beneath another sky
Where every story we've told

[Chorus]

Turns to gold, gold
Gold
Turns to gold

[Verse 2]

A promise made, but will it keep
When the cold keeps us from sleep?
When the untouched is in our reach
Will the water still taste as sweet?

[Pre-Chorus]

Come with me, darling
Let's go down the secret road
Where the unknown is all we know
Lay with me, darling
Let's sleep beneath another sky
Where every story we've told

[Chorus]
Turns to gold, gold
Turns to gold, gold

[Bridge]
Come with me, darling
Let's go down the secret road
Where the unknown is all we know
Lay with me, darling
Let's sleep beneath another sky
Where every story we've told
Come with me, darling
Let's go down the secret road
Where the unknown is all we know
Lay with me, darling
Let's sleep beneath another sky
Where every story we've told

[Chorus]
Turns to gold, gold
Turns to gold, gold

[Outro]
Gold, gold
