

# My First Everything

Riley Green

You were in that two-piece in the bucket seat  
Of my old man's red Camaro  
Rolling down to Port Saint Joe  
That FM dial cranked up to ten had Mellencamp  
And I was picking out little pink houses  
All the way down the coast I got lost in your smile  
I was flying down 59  
And taking in every mile  
That first time loving feeling  
Midnight kiss I'm stealin'  
Pullin' me in like we were there all along  
First-time tequila buzz  
Thinkin' every song that played was us  
Singin' all the wrong words all night long  
You were my first love  
My first broken heart  
That's all you were to me  
Just my first everything We left our shoes and our clothes  
Up on the dock and we found an empty spot  
Threw a blanket down in the sand  
We tried to take it slow  
For moving fast just to make it last  
But when the sun came up on us, I was a man  
That first time loving feeling  
Midnight kiss I'm stealin'  
Pullin' me in like we were there all along  
First-time tequila buzz  
Thinkin' every song that played was us  
Singin' all the wrong words all night long  
You were my first love  
My first broken heart  
That's all you were to me  
Just my first everything  
You were my first everything If I only get one first time  
Well, lookin' back, girl  
I'm glad that you were mine That first time loving feeling  
Midnight kiss I'm stealin'  
Pullin' me in like we were there all along  
First-time tequila buzz  
Thinkin' every song that played was us  
Singin' all the wrong words all night long  
You were my first love

My first broken heart  
That's all you were to me  
Just my first everything  
You were my first everything  
Just my first everything  
My first everything
