

# Dancer (Kygo Remix)

Didrik Thulin

[Intro]

I see clear (I see clear, I see clear)  
I see clear (I see clear, I see clear)  
I see clear (I see clear, I see clear)  
I see clear, when I close my eyes  
I see clear, when I close my eyes  
I see clear, when I close my eyes  
I see clear, when I close my eyes

[Verse 1]

I see clear, when I close my eyes  
I see past your face, I see past your disguise  
I see past your thoughts and in to your mind  
Surrounded by black and white  
Grey minds crashing down a sidewalks  
They don't wanna listen to this dirty talk  
They wanna dance, dance for the whole world  
Whole world, their own world

[Chorus]

So you wanna be a dancer  
You wanna swing among the stars  
You wanna go the fast way, from Jupiter to Mars  
So you wanna be a dancer  
You wanna swing among the stars  
You wanna go the fast way...  
So you wanna be a dancer  
So you wanna be a  
So you wanna be a dancer  
So you wanna be a

[Verse 2]

Spinning around in a blurry scene  
Going up up up, I'm a dancing machine  
True sound, true lights makes you believe  
You're in the universe, or somewhere in between  
Floating around like a bubble  
Oh, pink colours, now you are in trouble  
Here it goes again, if you wanna dance, dance my friend

Dance till the end, yeah, dance till the end

[Chorus]

So you wanna be a dancer  
You wanna swing among the stars  
You wanna go the fast way, from Jupiter to Mars  
So you wanna be a dancer  
You wanna swing among the stars  
You wanna go the fast way...  
So you wanna be a dancer  
So you wanna be a  
So you wanna be a dancer  
So you wanna be a

[Bridge]

You're running it like a supernova  
With a big big bang (big bang)  
You're running it like a supernova  
With a big big bang

[Chorus]

So you wanna be a dancer  
You wanna swing among the stars  
You wanna go the fast way, from Jupiter to Mars  
So you wanna be a dancer  
You wanna swing among the stars  
You wanna go the fast way...  
So you wanna be a dancer  
So you wanna be a  
So you wanna be a dancer  
So you wanna be a  
So you wanna be a dancer  
So you wanna be a  
So you wanna be a dancer  
So you wanna be a
