

City Lights

HAEVN

[Verse 1]

Waiting on the corner I first saw you
Rising of my heart, everyone will see
There's no wrong in all the things you told me
There's a wall for all the truth in me

[Pre-Chorus]

Well it's time to leave the darkness, baby
It's time for us to know
Nights that we got lost, my baby
I've seen you grow

[Chorus]

I can see in your eyes
City lightning
I just wanna see your eyes
In city lightning

[Verse 2]

There's a rising stronger than we know it
There's a hiding bigger than we see
Leave behind worry, like you told me
Lights are on the other side of fear

[Pre-Chorus]

Now it's time to break the walls, my baby
Time for us to go
And all the nights that we got lost, my baby
I've seen us grow

[Chorus]

I can see in your eyes
City lightning
I just wanna see your eyes
In city lightning

[Post-Chorus]

Run faster, I can't believe it
We are waiting for the night to fall
Run faster, don't leave it

We are waiting for the night to fall

[Outro]

There's a rising stronger than we know it

There's a hiding bigger than we see
