

Pain Heals and Fade Away

Fijimacintosh

[Verse 1]

Really, you could find me (Find me)
'Cause, baby, I ain't hiding ('Cause, baby, I ain't hiding)
Your main not riding (Your main not riding)
It's not surprising, you always been misguided (Always been misguided)
Ooh, walk inside the bank and I need everything
Teller staring at my neck, it look like candy rain
Ooh, shawty say she know me you don't know anything
If you live the life I live then you would feel this way

[Pre-Chorus]

Baby, I'm just rock star living
Why you always gotta be distant?
Why you always messing up my vision?
I know I just gotta be consistent

[Chorus]

Save my life running 'way from you
I'm gon' waste my time if I wait on you
I done seen it all before like dÃ©jÃ© vu, uh
And it fade away, and it fade away

[Verse 2]

It's the young wild boys in the park at night
And my heart it never change by how I live my life
Trust me, I believe that girl dreaming 'bout me
No such thing as a friend, please don't bring 'em 'round me
I just called her, she didn't answer
Baby, you been stalling, think that it's romantic
Baby girl, I'm falling, it's only causing damage
Really I just got involved and I didn't even plan it

[Pre-Chorus]

Baby, I'm just rock star living
Why you always gotta be distant?
Why you always messing up my vision?
I know I just gotta be consistent

[Chorus]

Save my life running 'way from you

I'm gon' waste my time if I wait on you
I done seen it all before like dÃ©jÃ vu, uh
And it fade away and it fade away
Save my life running 'way from you
I'm gon' waste my time if I wait on you
I done seen it all before like dÃ©jÃ vu, uh
And it fade away and it fade away

[Bridge]

She's hot like lava
I'm cool like water
And I've learned my lesson
That girl's a problem

[Chorus]

Save my life running 'way from you
I'm gon' waste my time if I wait on you
I done seen it all before like dÃ©jÃ vu, uh
And it fade away, and it fade away
Save my life running 'way from you
I'm gon' waste my time if I wait on you
I done seen it all before like dÃ©jÃ vu, uh
And it fade away, and it fade away
