

# Smiling When I Die

Sasha Sloan

[Verse 1]

Yesterday felt like my graduation  
But now some of those kids have got their own  
Been a while...since I took a vacation  
It's been a while since I really let go

[Pre-Chorus]

Don't wanna look back  
Thinking I could've done this  
Or I could've tried that  
Don't wanna look back  
'Cause it's going by fast

[Chorus]

I'ma call my mother  
It's been a while since I've been home  
Take a trip in the summer  
See all the lights in Tokyo  
Get lost in the desert  
Just to see what I can find  
So when it's my time, I  
I'm smiling when I die (When I die, when I die)  
I'm smiling when I die (When I die, when I die)

[Verse 2]

Yesterday felt like my first day working  
No, I'm not the youngest on the clock  
Been a while since days were just for burning  
It's been a while since I threw back a shot

[Pre-Chorus]

Don't wanna look back  
Thinking I could've done this  
Or I could've tried that  
Don't wanna look back  
'Cause it's going by fast

[Chorus]

I'ma call my mother  
It's been a while since I've been home

Take a trip in the summer  
See all the lights in Tokyo  
Get lost in the desert  
Just to see what I can find  
So when it's my time, I  
I'm smiling when I die (When I die, when I die)  
I'm smiling when I die (When I die, when I die)

[Bridge]

There's been a couple times that I've fell in love  
But a couple times just ain't enough  
There's been a couple joints that I could've shared  
But I guess I gotta start somewhere

[Chorus]

I'ma call my mother  
It's been a while since I've been home  
Take a trip in the summer  
See all the lights in Tokyo  
Get lost in the desert  
Just to see what I can find  
So when it's my time, I  
I'm smiling when I die (When I die, when I die)  
I'm smiling when I die (When I die, when I die)  
I'm smiling when I die (When I die, when I die)  
I'm smiling when I die (When I die, when I die)  
I'm smiling when I die (When I die, when I die)
