

# Sing It to Me

Dustin Lynch

Girl the way you move when you move is like a melody  
Yeah, the music hits when your lips get a hold of me  
You know just the way, what to play to keep me hanging on  
Your kiss is like a song Sing it to me 'til the morning sun comes up  
Love the sound of your love, turn it up, turn it up  
Hitting repeat, girl, I got you stuck in my head  
Should get out of this bed, but instead  
Go ahead, sing it to me Sing it to me, girl (all night)  
Sing it to me, girl (all right)  
Sing it to me, girl Baby when you start you make my heart beat like an 808  
Like it ain't no thing, you pull my strings when you say my name  
When your finger tips get to getting round where they belong  
Your touch is like a song  
Sing it to me 'til the morning sun comes up  
Love the sound of your love, turn it up, turn it up  
Hitting repeat, girl, I got you stuck in my head  
Should get out of this bed, but instead  
Go ahead, sing it to me Sing it to me, girl (all night)  
Sing it to me, girl (all right)  
Sing it to me, girl Lost in the rhythm that you give  
And your love's like a song  
Come on, come on Sing it to me 'til the morning sun comes up  
Love the sound of your love, turn it up, turn it up  
Hitting repeat, girl, I got you stuck in my head  
Should get out of this bed, but instead  
Go ahead, sing it to me  
Sing it to me, girl (all night)  
Sing it to me, girl (all right)  
Sing it to me, girl Sing it to me  
All night, all right
